Subject: As a tax payer and citizen of SC, I oppose the latest actions against Uber.

I utilize Uber all over the country as a business traveler and it is safer, cleaner, faster, and more reliable than other public and private transportation methods.

I am most concerned with the rapid decision the state made without any warning. I used Uber in Greenville, SC just 5 days ago. I have also recently used it in Charleston. It is also extremely hard to find a taxi in Greenville SC and thus you are forcing the citizens to find other methods of transportation without warning.

Your decision is deeply troubling without knowing who and how citizens use Uber.

Your decision also stifles innovative new ways of commerce, transportation, and the jobs of many Uber drivers in the state.

Furthermore it has brought to light a greater concern for the overall business aptitude of the Public Service Commission.

Get informed before making rash decisions for the collective public of South Carolina.

Subject: Uber

I have a hard time understanding why the commission would abruptly shut down a pro-consumer business like Uber.

I use the service quite often and it is head and shoulders above the service "transportation companies" provide to us.

It isn't always the least expensive, but it is the most reliable! I have never had anything but positive experiences using the service, which I certainly can't say about the "transportation companies" I have done business with in our area.

I would be happy to go into more detail about the bad service and rude drivers I have encountered using the "transportation companies" that operate in our area if you are interested.

Please consider the consumer and not the lobbyists when it comes to making decisions that affect your constituents.

Thank you for your consideration.

Respectfully,

Mark Federal

Subject: Uber standard

I have used the Uber services many times and have yet to receive poor and or unsafe ride most cabs driver's are very dangerous and will take you around the world to go down the street just to jack the fair up
Uber drivers are polite and very safe mined they take the most direct route Uber is a fresh change for travelers to use and be ripped off by taxi drivers
